

Quality Assurance Associate/ Qualified Person

Ferring Controlled Therapeutics Ltd is a highly successful pharmaceutical manufacturing and research and development company located in East Kilbride near Glasgow. Established in 1985 the company is now part of Ferring Pharmaceuticals a private, research driven Biopharmaceutical Company active in global markets.

Working within the Quality Assurance Department, the successful candidate would contribute to ensuring site compliance with Good Manufacturing Practices (cGMP) and manufacturing licences for marketed and clinical products.

Reporting to the Head of Quality Assurance this position would ideally suit a Quality Assurance professional with at least five years relevant experience within the pharmaceutical industry/GMP environment.

Experience Required: A degree (BSc Hons or MSc) in pharmacy or life-science discipline and be eligible as a Qualified Person (Directives 2001/83/EC and 2001/20/EC). Previous experience in Health Authority (preferably FDA) Inspections is desirable.

The main responsibilities are:

- Release of commercial batches to market and site release of investigational medicinal product.
- Generation of Product Quality Review
- Lead Supplier Audits
- Prepare and execute internal audit programme
- Participate in Health Authority Inspections
- Manage and deliver GMP Training programme
- Manage SOP, complaint, deviation, change control and CAPA systems
- Apply quality standards to new products in Research and Development
- Contribute to Site Quality Objectives and quality improvement projects

Please supply an up to date CV and covering letter stating current notice period and salary expectations to jane.mcewan@ferring.com.

Closing Date: Friday 9th June 12pm.
